

I am writing to strongly encourage the FCC not to deregulate all of the media outlets in our country. Filing this petition is one of the most patriotic acts that American citizens can do. A decision to deregulate media outlets would be one of the clearest forms of proof that our democracy (which we cherish and brag about world wide) is becoming a thing of the past. Although the majority of the country has been lulled into a fearful existence, the cover over society's eyes will not last for too much longer. The economic problems facing our country will force all Americans to carefully examine what is happening as the gap between the rich and poor increases. Derulating media outlets is a HUGE step backwards!!! Don't do it!!!
